WHEAT MARKET WEAK MOST OF THE DAY

Traders Are Disposed to Discount to Large Extent the Recent Damage Reports.

CHICAGO, Aug. 5.—The wheat market was inclined to be weak all day, although several mild rallies occurred on buying by shorts based on fresh reports of damage to the growing crop in the Northwest. News from the spring wheat country was conflicting, but many traders were disposed to discount to a large extent the numerous damage reports. The market was depressed by a report that from a miscropic examination of 100 samples of wheat taken from widely separated sections of the Northwest, only isolated traces of black rust were shown and in each case the growth was too far advanced to be injured. The favor of the Liverpool market after a three days' holiday tended here to weaken the local market. The close was weak. September opened &@c lower at 93k @93k.

The corn market was weak all day owing to free selling by local holders. The weakness was accentuated late in the session by reports of rains from several localities in the corn belt. The close was weak. September opened &@c lower at 45kc to 76kc, sold at 76kc and then declined to 75c. The close was at 75kg @75kc.

Oats were inclined to be weak because of the slum; in wheat and corn, but active buying of the May delivery by a leading bull tended to hold prices steady. September opened &@c lower at 45kc to 45kc. The close was 45kc.

Provisions were heavy throughout the entire day owing to general liquidation, due chiefly to the weakness of grain. At the close September pork was off 27kc. Lard was down 12kc. Ribs were 17kg 20c lower.

TUESDAY WAS QUIET DAY ON MARKET ROW

Supplies Were Normal: Quotations Remained Unchanged; Other Features.

Dealing was weak on the local produce market again Tuesday, and but few features were presented in the way of price changes. Supplies were also normal, but nothing new put in an appearance. Perhaps the greatest demand, however, was for raspherites.

Cantaloupe prices were practically the same as on the preceding day, and there was nothing in the market to indicate any immediate improvement. Receipts continue large from California and Moapa, Nev., but the melons are rather small, as is also the demand. Pears and peaches continue to come in from the "Golden State" moderately freely, but quotations still remain at 10 cents a pound, respectively. one remarkable feature in the market

One remarkable feature in the market this summer is that no increase has as yet been manifested in the price of sugar, despite the fact that the season for "putting up" fruit is now in full swing. The housewife does not regret this, however, for the high price of this necessary article usually prevents her from preserving as much fruit as she otherwise would. Cane sugar retails at \$6.50 per hundred weight, and beet sugar at \$6.30. In the vegetable line potatoes continue to meet with the largest demand. Quotations on the vegetable range from 8 to 10 pounds for 25 cents,
